

# Centro WebNet Broadband

## HOW IMPORTANT IS YOUR INTERNET AND EMAIL TO YOUR BUSINESS ? NEED MORE SPEED ?

Installing a Centro Webnet Broadband solution not only gives you more speed because you can use 2 ADSL lines, 1 traditional line and a ADSL2 + line, it also gives you resilience, because the circuits are delivered over different hardware technologies. It also provides the ability to use the mobile telephone network to provide a backup connection in the event of a Disaster.

The solution provides other benefits such as load balancing, sending web traffic down one circuit and email down the other, or a combination of the two, it also has built in VPN endpoint, to create secure connections between sites within the router

### Multi User Business Broadband Package ADSL upto 8MB circuit 1 Static IP Address
